ABOUT ME

Bringing 5 years of specialized experience in crafting dynamic, custom WordPress websites that captivate and engage. Adept at leveraging a diverse array of plugins, themes, and frameworks to engineer exceptional user experiences. Proven track record in project management and performance optimization, ensuring superior site functionality, speed, and overall efficiency.

WORK EXPERIENCE

SOFTWARE ENGINEER | MARCH 2022 – PRESENT

HENNESSEY DIGITAL, USA (REMOTE)

- Developed attorney-focused projects using technologies including React.js and WordPress, ensuring tailored solutions for legal professionals.
- Utilized various plugins such as Advanced Custom Fields, Contact Form 7, and Yoast SEO to enhance website functionality and SEO performance.
- Implemented effective SEO strategies and optimized website speed to improve site performance and user experience.
- Translated web designs from Figma, Photoshop, or Adobe XD into HTML and CSS, ensuring precise and accurate replication of visual elements.
- Developed custom WordPress plugins to introduce specialized functionalities and meet specific project requirements.

WORDPRESS DEVELOP | SEP 2021 - APR 2022

FRAKTON - PART OF KIN + CARTA, PRISTINA KOSOVO

- Led the development, updates, and maintenance of WordPress WooCommerce projects, ensuring optimal functionality and a seamless user experience.
- Utilized plugins such as Advanced Custom Fields, Contact Form 7, and Yoast SEO to improve project performance and feature set.
- Collaborated with a Scrum team, adhering to deadlines and maintaining high code quality standards.

WEB DEVELOPER | JUN 2020 - SEP 2021

BBROS, PRISTINA KOSOVO

- Developed, updated, and maintained WordPress sites using Custom Themes and Elementor, providing advanced customization and design flexibility.
- Designed and implemented robust database logic for diverse systems to ensure efficient data management and optimal functionality.
- Created interactive websites using JavaScript frameworks such as React.js and Vue.js, enhancing user engagement and site interactivity.
- Proposed and implemented new features through effective coding practices to drive innovation and functionality.
- Managed and led projects, overseeing planning, execution, and delivery to achieve successful outcomes.

INTERNSHIP

WEB DEVELOPER | FEB 2020 - JUN 2020

XAM CREATE, PRISTINA KOSOVO

- Completed an intensive internship: Gained hands-on experience and applied acquired skills to real-world projects, enhancing practical knowledge in web development.
- Showcased proficiency and adaptability: Effectively contributed to various projects and tasks, demonstrating a solid understanding of web development principles and practices.
